

Join Boston Children's Hospital in a world-class partnership

Boston Children's Hospital
Orthopedics & Sports Medicine

WHEN YOUR ORGANIZATION BECOMES A BOSTON CHILDREN'S HOSPITAL SPORTS MEDICINE AFFILIATE, your athletes gain direct clinical access to our world-renowned experts in sports medicine. With locations in Boston, Lexington, North Dartmouth, Peabody, Waltham and Weymouth, specialized care is always within reach.

Why partner with us?

Our sports medicine experts have unparalleled experience that allows us to provide the highest quality health care based on specific needs of growing and adult athletes.

Who do we provide care for?

We provide care to over 150 prestigious sports and performing arts organizations including the Boston Ballet, Boston Athletic Association and Northeastern University.

Available benefits

Preferred access to care:

- FasTrac mobile app for one-click appointments
- Private contact line for our Affiliated Group Member Liaison
- Direct access for urgent appointments, evaluations and treatments
- Access to our Saturday Urgent Sports Medicine Clinic (September through May)
- Concussion clinics and baseline testing at our Boston, Lexington, Peabody, Waltham and Weymouth campuses
- Pre-participation physicals and injury-prevention programs
- Specialized performance programs for runners and female athletes

Comprehensive education programs for athletes, athletic trainers, coaches and families:

- Injury prevention training
- Sports psychology
- Sports nutrition
- Access to conferences and other lecture sessions provided by the department and The Micheli Center for a complimentary or reduced rate (for fully contracted affiliated group program members)

Team physician and/or clinical staff may supply:

- Direct contact, coverage of major events and supervision of athletic trainers as mandated by their Massachusetts practice licensure laws under the Commonwealth of Massachusetts Board of Allied Health Professionals
- Partial affiliation status with institutions for clinical access, referrals, second opinions and surgical consults are also available (known as our Referring Affiliates)
- Guidance for athletic trainers, physical therapists, dance therapists, school nurses and administrators
- Help with establishing treatment protocols and developing Emergency Action Plans for all venues and coverage needs
